**ZEBRA**

StatBand Emergency Wristbands

Enable responders to quickly and accurately identify, record and track people and their personal items at the scene of an emergency with a customizable StatBand. Zebra's durable moisture and abrasion resistant identification tags feature a patented fastening system for quick securement. They are also compatible with emergency response and disaster management software for easy implementation.

EMS

The EMS StatBand enables responders to quickly and accurately identify, record and track the injured. The flexible design allows it to be used for triage, accident / casualty scenes or everyday emergencies by removing the color-coded identifiers.

Evacuation

The Evacuation StatBand enables responders to quickly and accurately identify, record and track multiple family members, pets and personal items so they can be reunited in case of separation during an emergency evacuation.

Rapid ID

This tag contains pre-printed and uniquely numbered barcodes and labels to enable caregivers the ability to track patients, their belongings and other information in everyday emergency response situations.

Triage

This all-in-one wristband and triage tag with uniquely numbered barcode labels enables responders to quickly and accurately identify, record and track the injured at the scene of an emergency.

StatBand Features Include

- Advanced water and abrasive-resistant material to withstand the harsh conditions of an emergency response environment far better than traditional paper and string tags
- Patented one piece fastening system that ensures wristband tags go on quickly and stay on until they are no longer needed
- Uniquely and sequentially numbered alpha numeric digits and Code 128 barcodes pre-printed on each tag and label for quick and accurate identification and tracking of people, pets and personal belongings
- Easy clip-on belt fastener enables that allows first responders both hands free to do their jobs
